What overall impression does the writer give of the character?
Harper Lee presents Scout as a character whechanges and grows through the events in the novel.

At the start, she is shown to be lacking in understanding about other people and the world around her when she says to her teacher, "Miss Caroline, he's a Cunningham."

Lee demonstrates how Scout stereotypes her classmate because of the family he comes from, and how she does not understand how saying this to a teacher could be humiliating.

Later on in the novel, she says to her brother, Jem, "I think there's just one kind of folks. Folks," illustrating how much she has grown as a character, as she can now see that everyone is an individual and should not be defined by their background, class or skin colour.

## Book Review

Once you have finished reading your book, you need to write a balanced review for other people who will not yet know about it.

The following websites have some good advice to help you:
https://www.booktrust.org.uk/books-and-reading/tips-and-advice/writing-tips/writing-tips-for-teens/how-to-write-a-book-review/

You can use this example to help you think about what to include and how to structure your writing:

## 1984 by George Orwell - review <br> 'Orwell's novella is a warning for the human race' <br> Heading with book title, sub-heading with more information about the book's content. <br> Conheeneyl

War is Peace. Freedom is Slavery. Ignorance is Strength.
1984 is a dystopian novella by George Orwell published in 1949, which follows the life of Winston Smith, a low ranking member of 'the Party', who is frustrated by the omnipresent eyes of the party, and its ominous ruler Big Brother.
'Big Brother' controls every aspect of people's lives. It has invented the language 'Newspeak' in an attempt to completely eliminate political rebellion; created 'Throughtcrimes' to stop people even thinking of things considered rebellious. The party controls what people read, speak, say and do with the threat that if they disobey, they will be sent to the dreaded Room 101 as a looming punishment.

Orwell effectively explores the themes of mass media control, government surveillance, totalitarianism and how a dictator can manipulate and control history, thoughts, and lives in such a way that no one can escape it.

Overview of the novel's main themes.

## Exploration

 of the main character(s)The protagonist, Winston Smith, begins a subtle rebellion against the party by keeping a diary of his secret thoughts, which is a deadly thoughtcrime. With his lover Julia, he begins a foreordained fight for freedom and justice, in a world where no one else appears to see, or dislike, the oppression the protagonist opposes.

Perhaps the most powerful, effective and frightening notion of 1984 is that the complete control of an entire nation under a totalitarian state is perfectly possible. If the world fell under the control of one or even multiple dictators, the future could easily become a twisted, cruel world where every movement, word and breath is scrutinised by an

Final summing
Orwell's novella is a warning for the human race. It highlights the up of the main importance of resisting mass control and oppression.
