Dear Parents / Guardians,

Re: If pupils take ill

Please be advised that Public Health England have produced a simple step-by-step guide for households detailing what to do if someone in your household develops Covid-19 symptoms. This guidance can be found using the link below. I do hope that it helps to explain what to do under all possible circumstances. Please do note that this guidance may change as we nationally work our way through this pandemic and should there be any changes I will endeavour to share these with you.

Should your household develop Covid-19 symptoms please do not send your son/daughter into school. Please do notify the school if your child or household tests positive for Covid-19. If a pupil has to stay off school because they are not well please do not send them back into school until they are fully better.

I do urge you to take a little time to read the 'Guidance for Home' document using the link below.
