Dear Parents/Guardians,

Re: Asymptomatic testing for parents and adults in households with children at school or college

Please be advised that NHS Test and Trace announced earlier this week that all adults in households with children at school or college, who do not have symptoms, can now access regular, rapid Covid-19 testing. This includes childcare and support bubbles.

Secondary school pupils will continue to access testing through their school. Children of primary school age (and below) without symptoms are not being asked to take a test.

There are different ways for a household, childcare or support bubble to collect their test to take at home, twice-weekly:

- through an employer, if they offer testing to employees
- by collecting a home test kit from a local test site – anyone aged 18 or over can collect 2 packs of 7 tests
- by ordering a home test kit online – but only if testing cannot be access through other routes, as this frees up home delivery for those who need it most

I hope this information is of use to you.

Yours faithfully,

Mr Strickland
Principal
