Big Questions

1. How do we maintain possession?
2. How and why would you use a running pass?
3. What options are available at a centre pass?
4. How can we use sideline set plays to improve our gameplay?
5. How do we defend the centre pass?
6. How do we link the netball court from the backline to attacking?

Set Plays

Using the netball court templates below design your own set plays. Use the examples on the previous page to help you but make sure yours are different to these. You could chose to design a set play that could be used at a centre pass, one that could be used at a side line or one that could be used at a back-line pass (attacking team or defending team).

Use the lines next to the image to explain your idea.
